Dear Fellow Enthusiast,

As our flowering season comes to an end we will all be reassessing the performance of our Dahlias through what has been an unusual growing season, certainly in the UK. We thought last year was hot but this year it was hotter and, unfortunately at times, much wetter. We have experienced some torrential downpours on several occasions, with the worst being on the 9th August, with almost 10cm (4") of rain falling in a 48-hour period and almost 4cm (2") in a ½ hour period on the Friday afternoon. That downpour and the resultant waterlogging on part of our main field has had some impact but overall the fields have looked as good as can be expected though flowering has been later than usual. As a result, we have had to hold back on some of the pot tuber varieties we would normally offer to ensure adequate stock levels for next year's production.

As many of you know we only do one main flower show each season, which is the Harrogate Autumn Flower Show, which also hosts the National Dahlia Society's Northern Group Show. Despite the weather in the run up to the show we still managed to stage a fabulous display which was awarded a Premier Gold Award and Runner up to Best in Show. Seeing so many of our customers at the show is one of the highlights of the year.

We are still living in very turbulent times politically with divisions in the country seemingly getting deeper with the vocabulary being used by both sides becoming very inflammatory rather than reconciliatory. Another deadline is approaching and while we know things won't change with the way we deal with customers outside the EU it is now even more uncertain as to how we will deal with those inside. One thing is for certain though and our Dahlias now seem to be more popular than ever with demand growing on an annual basis. I have even been heard talking about Dahlias on BBC Radio 4's "You and Yours" by a Dahlia enthusiast in Cincinnati, who made a point of visiting the nursery when they were over in early September! Last week was one of the busiest we have had for welcoming visitors from all over the UK who, despite my reservations about how the fields looked, made a point of telling me how impressed they were with the Dahlias.

We have already had wish lists placed for next seasons requirements and we will be acknowledging these as soon as we can. We have again been faced with a slight increase in inspection charges but for this year we will be absorbing them, and we have fortunately been able to maintain the Carriage and Packing Charges at the same level as they were last year. Remember that pictures and further information on all the varieties we offer are available on our website and I do try to post regular updates on our Facebook page, which I know several of you follow.

Please do not hesitate to contact us via email with any queries and we will do our utmost to help.

Yours faithfully,

David W Hall

TERMS OF SALE

Tubers are grown in 4" to 5" pots. They are not surplus stock but selected plants grown specially for the purpose of providing healthy propagating material

CARRIAGE, PACKING AND ADMINISTRATION CHARGES

(prices include insurance)

| COUNTRY | Admin Fee | Up to 12 Tubers | Each additional 6 Tubers |
|-------------|-----------|-----------------|-----------------------------|
| Croatia | £40.00 | £25.00 | £7.50 |
| Norway | £40.00 | £25.00 | £7.50 |
| Switzerland | £40.00 | £25.00 | £7.50 |
| Ukraine | £40.00 | £25.00 | £7.50 |
| Turkey | £40.00 | £25.00 | £7.50 |
| Canada | £40.00 | £30.00 | £12.00 |
| U.S.A | £40.00 | £30.00 | £12.00 |
| New Zealand | £40.00 | £35.00 | £12.00 |
| Japan | £40.00 | £40.00 | £15.00 |

Please Note: Due to the stringent cleaning process to allow export of tubers we have had no option but to put an additional **£2.00** surcharge on all tuber prices for export outside the UK. (This has been included in prices shown)

To help cover the administration costs for field inspection, soil sampling and issue of certificates for export there is also an administration charge of **£40.00** on all export orders.

Important Notice: The classification of Dahlias in the list is based on the 34th edition classified directory published by the National Dahlia Society.

DETAILS FOR ORDERING

As far as we are aware the following applies regarding permits needed, however please check with your own plant health department for advice, and have any necessary permits in place before placing an order.

Customers in **Canada** should apply to their department of Agriculture, Plant Health Department, for an IMPORT PERMIT and should enclose the permit with their order. **WE REGRET THAT WE ARE UNABLE TO ACCEPT ORDERS FROM CANADA WITHOUT RECEIVING A PERMIT.**

Note : to customers from **Croatia, Ukraine** and the **United States of America**. Orders of up to 12 tubers do not require a permit. Orders of 13 tubers or more will require an import permit
Customers in **New Zealand** and **Japan** do not require an import permit.

PAYMENT – You can pay by **MASTERCARD or Visa**– please complete the order form and note that **we now also require the last 3 digits of the card security number** printed on the signature strip on the back of the card.

Alternatively we must have your payment in **STERLING**, by means of a Bankers Draft or an International Money Order drawn on London, and made payable to W N Hall & Sons Ltd.

No orders will be processed until full payment has been received.

All orders will be sent **AIR PARCEL POST, SMALL PACKET SERVICE** or **COURIER**.

We welcome your advise on the best way to send depending on your locality. Appropriate carriage and packing charge should accompany the order. Please see table for details.

Dispatch to the Southern Hemisphere will be from mid November and to all other areas during December and January. North American customers however are strongly advised to take delivery early in December.

Please send your orders with payment in Sterling, or your Credit Card details as requested, (plus permit if required) as soon as possible, **and at least one month before dispatch date**, to ensure that tubers can be reserved and prepared for dispatch at the correct time.

We offer the Tubers on the following pages on the assumption that the plants grown produce quality tubers able to withstand the rigorous cleaning process required to pass the export inspections. Unfortunately when we come to despatch, this is not always the case and it would be helpful if a list of suitable substitutes were included with your order for any cases of unavailability. Please indicate on your order form when you wish to receive your order.

Thank you
